

Diversity Statement

It is my role as a professional school counselor to act as an agent of change who actively seeks out barriers to student success and then remediate them. In partnership with all our stakeholders, I strive to create a school community that is welcoming and embraces cultural and ethnic diversity as a strength. As a professional school counselor, it is important to recognize how my privilege affects students. I will always work to identify and remove opportunity and achievement gaps by addressing the systemic policies and biases that create them. I strive to provide all my students with meaningful, culturally appropriate academic, social-emotional, and career and college readiness learning experiences that enrich their lives and prepare them for post-secondary success.
